Profile:

Recent graduate of Dublin Business School with a 1st Class Honours Higher Diploma in Science in Computing (Software Development). An ex-process engineering professional with extensive multinational experience in HVM process transfer, control and validation. Proven leadership skills involving managing, developing and motivating teams to achieve project objectives. Well organised and detail-oriented, with a proven ability to 'think outside the box'. Results driven while being committed to producing high quality work.

Looking for a Software Development/FrontEnd Development position with a company that can offer a dynamic, exciting environment to learn and grow as an IT professional. I am an ambitious, hardworking and a flexible team player, with excellent problem solving and communication skills.
